

Base Frame & Extendable Bracket for 19" Bulkhead panel

SBH-BAFM / SBH-EXBR

The base frame and extendable bracket are designed for installing RF Interface Panels equipped with bulkhead connectors and can be mounted on cable trays or similar structures. The base frame accommodates up to five 19" RF Interface Panels, providing an efficient Demarcation Point (D-Marc Point) and RF cable management solution for Neutral Host equipment installations.

- Ideal for RF Cable Management as for D-Marc Point
- Base frame can be mounted to a 19" rack or a Unistrut.
- Accommodate up to 5 Bulkhead Panels (SBH-431-10P or SBH-225-10P)
- 8" to 12" Extendable Bracket with 0.5" steps (SBH-EXBR)
